### Description of Services

Granta Housing Society is a Registered Charitable Housing Association and Domiciliary Care Provider developing, managing and maintaining affordable rented housing and low cost home ownership schemes in the East of England, our main area of business being the provision of supported housing communities and care services to vulnerable client groups. The Society has worked in the Eastern Region for over 30 years.

The Society is a separate business within the Metropolitan Housing Partnership, one of the largest and most successful housing associations in the country.

Our Care and Supported Housing range of accommodation includes both shared and self-contained housing. Models of service include Registered Care Homes, Registered Nursing Homes, Supported Housing, Floating Support and Resettlement services.

The level of intervention ranges according to the support and care needs of service users but can vary from 1 hour per week to 24-hour staff cover. An emergency on-call service is available for all services.

Granta aims to make a positive difference to people's lives by using the principles of **Valuing People, Rights, Choice, Inclusion and Independence** enabling self-determination, personal development and fulfilment.

### **New Opportunities/Developments**

We strive to help our service users develop life skills to live full and independent lives within the community. External inspection and funding agencies regularly note how committed staff are in working to develop and enhance the opportunities for involvement, choice and variety in the lives of our service users, whilst maintaining appropriate standards of privacy and dignity.

The Society has a number of support services in development and has looked to improve its existing services by re-developing and re-modelling to enable improved standards of accommodation and service provision to be attained.
