### Description of Services

Larksfield is a Transition Unit for people with a disability and the aim of the service is to facilitate the development of independent living skills.

Larksfield is a purpose built unit comprising six individual flats at ground floor level. Each flat has its own bathroom with walk in shower, bedroom and living space. The unit has a communal lounge, dining area and a communal kitchen with adjustable sinks and cookers.

Papworth Trust is the landlord and Cambridgeshire County Council provide the Support. All new tenants sign a tenancy agreement with the landlord.

We offer a supportive environment within which tenants can learn, develop and reinforce the skills and attitudes that are necessary for them to achieve their maximum level of independence.

Objectives and goals are set with the tenant in order to support moving on to a more independent setting.

Each tenant will have an Individual Support Plan and a Person Centred Plan.

All tenants will be supported to complete their Support Plan and encouraged to complete this in a very detailed and comprehensive manner.
