Description of Services

The Prospects Trust is a registered charity set up in 1989 that works with people with learning disabilities to gain new experiences and develop their work preparation skills through the various activities that are provided at Snakehall Farm, an 18 acre Soil Association certified organic farm.

We are situated 10 miles north of Cambridge, between the villages of Reach and Swaffham Prior and are easily reached by bus from Cambridge and Newmarket.

You will have the chance to:

- Join others in a friendly and supportive environment which encourages team working
- Develop horticultural skills though growing organic produce, harvesting and preparing goods for sale
- Gain qualifications in horticulture in partnership with Cambridgeshire Regional College. We currently offer NPTC Certificate in Skills for Working Life (Horticulture) and City and Guilds Level 1 NVQ in Horticulture.

- Be part of a professional Garden Maintenance Team, learning to deal with customers, using garden machinery and gaining valuable employable skills
- Try different types of work experience with the help and support of our professional Employment Co-Ordinator
- Work in the farm shop selling the vegetables, herbs and plants you have grown to the local community.

We can also help you to work out your Individual Learning Plan and work with you to achieve your goals.

It is hard work, but fun! You will get the “feel-good” factor by working outdoors and enjoying the space and freedom that working on a farm offers.

Are you interested? Want to find out more? Why not arrange a visit to meet the team and have a look around.
