Description of Services

SimonsAble specialises in promoting independence and individuality for people with physical disabilities.

Through our mentoring services, we work with children and adults who have physical disabilities with self-confidence in pursuing their goals and dreams. This could be assistance with building up assertiveness skills, or assistance in planning a next step in their life.

We also work with staff to help them enhance their services. Through our Consultancy and Workshop services, SimonsAble helps staff to think about disability issues at a deeper level. Such services also give professionals at residential homes additional tools to help the residents to be independent. To someone with a severe physical disability, being in control of their environment and making decisions gives them independence. People with physical disabilities, then, require the right type of human support for them to put this into practice.
