### Description of Services

Thera East Anglia is a subsidiary company of Thera Trust, directly controlled by people with a learning disability. Thera East Anglia has staff to support people in the community. We support people in their own home in having fun, with leisure and at work, with short breaks to help carers and with some other services too. Thera involves the people it supports in running the company. This means people with a learning disability help to design their own support and have a say in how the company works. We have our own Board and Managers who listen to the needs, concerns and wishes of the people they support and their staff. However, as part of Thera Group, Thera East Anglia has the benefit of being part of a much larger group of companies. It can share skills, experience, and ideas with other companies in the Group. It also has the benefit of shared costs, i.e. when corporate services, such as Finance and HR, are provided for the group as a whole. We have a very clear Vision, which is shared widely with people we support: families, carers, staff and commissioners. The people we support are at the centre of this.
